PROFESSIONAL SUMMARY

BCA graduate and aspiring Java Full Stack Developer with a strong foundation in Core Java, object-oriented programming, SQL and front-end development, plus working knowledge of Python. Completed a Full Stack Development internship at Ethnotech Academy (NSDC-affiliated) and delivered three end-to-end web application projects using Django and MySQL. Seeking an entry-level Java Full Stack Developer role to contribute to scalable application development.

TECHNICAL SKILLS

Programming Languages: Java (Core Java, OOP, Collections, Exception Handling), Python, SQL
Web Technologies: HTML5, CSS3, JavaScript
Frameworks & Libraries: Django, JDBC, REST APIs
Databases: MySQL, Database Design, Normalization, Joins, SQL Queries
Tools & Platforms: Git, GitHub, VS Code, Eclipse, MySQL Workbench
Concepts: Object-Oriented Programming, Data Structures & Algorithms, DBMS, CRUD Operations, Debugging

INTERNSHIP EXPERIENCE

Full Stack Development Intern | Feb 2026 – Mar 2026
Ethnotech Academy (in association with NSDC & Maharaja Institute of Technology), Mysore, India

- Completed a structured internship in Python Full Stack Development, covering front-end fundamentals, back-end logic, database integration and deployment of web applications.
- Built and tested full-stack web modules integrating HTML, CSS and JavaScript front-ends with a Python back-end and MySQL database.
- Implemented CRUD operations and request handling to develop functional application features.
- Used Git and GitHub for version control, code management and collaborative development.

PROJECTS

Instagram Clone – Social Media Web Application | 2026
Technologies: Python, Django, MySQL, HTML, CSS, JavaScript

- Developed a social media platform with user authentication, profile management, image posts and reels.
- Designed a normalized relational schema in MySQL to manage users, posts, followers and engagement data.
- Currently extending the application with audio transcription and multi-language translation features.

Polls Analysis System | 2025
Technologies: Python, Django, MySQL, HTML, CSS, JavaScript

- Built a web application enabling users to create polls, cast votes and view aggregated results in real time.
- Implemented secure user authentication and role-based access to separate administrator and voter functionality.
- Designed the back-end data model and wrote SQL queries to aggregate and rank voting results.

Sentiment Analysis of Tweets using Text Mining | 2025 · Group Project
Technologies: Python, NLTK, Pandas, Matplotlib

- Built a system classifying tweets as positive, negative or neutral using text-mining and NLP techniques.
- Performed data preprocessing including tokenization, stop-word removal and stemming to improve classification accuracy.
- Visualized sentiment distribution and trends using charts to present findings to evaluators.

EDUCATION

Bachelor of Computer Applications (BCA) | 2023 – 2026
MIT Degree College, Mysore, Karnataka, India

Pre-University Course (PUC), Science | 2021 – 2023
Vidyavardhaka PU College, Mysore, Karnataka, India

CERTIFICATIONS & LANGUAGES

Certificate of Internship – Python Full Stack Development, Ethnotech Academy in association with NSDC (2026).

Languages: English (Professional) | Hindi (Fluent) | Kannada (Native)
